Letter of Recommendation for Lauren Carroll

I am delighted to write a letter of reference for Lauren Carroll. Lauren worked closely with me from May to August 2014 as a Marketing Intern in support of my clinical practice and educational programs here at Philadelphia Integrative Medicine. She was responsible for formulating and executing a marketing plan, keeping my social media sites updated, addressing website maintenance and updates, as well as creating and distributing flyers for my upcoming events.

Lauren has been my most talented, creative and productive marketing intern to date. Of all the staff members and interns I have hired over the last decade, Lauren has been the brightest and most motivated as well as the most easy-going and pleasant to work with. **I give her my highest recommendation, without reservation.** In addition, I found her to be conscientious and am extremely hard worker. She is a highly skilled communicator. She possesses excellent interpersonal skills and is a great writer. Lauren would be an asset to any organization who would employ her, and **I would be delighted to rehire her in the future if our career paths cross again.**

I was impressed that Lauren executed all of her assignments in a timely fashion or early. She was very organized and is a continuous learner. For instance, I suggested she learn about a new social media site, Carii, and Lauren took the initiative meet personally with the CEO of the business, and then report back to me so we could strategize how this new online web platform would support our marketing efforts.

Please feel free to email (drtetlow@philly-im.com) or call me at (888) 702-7974 x 1 should you require any further information. I would be delighted to talk to you further about Lauren and support her future success in any way I can.

Sincerely,

Georgia K. Tetlow MD

Dr. Georgia Tetlow MD

Clinical Assistant Professor of Rehabilitation Medicine, Sidney Kimmel Medical College (formerly Thomas Jefferson Medical College)
